SUBJECT INDEX

Acclimation,
  and *in vitro* thermogenesis of BAT from rats and guinea pigs, 109
  and lipid composition of cockroach fat body, 211
  and tilt evoked swimming in a crab, 367
  effect on amino acid transport in carp intestine, 7
  effect on duration of perch cardiac action potential, 89
  responses in enzyme activities and metabolite concentrations in scorpion tissues, 327
  time course of in a scorpion, 135
  to cold and ganglioside GM_3 levels in BAT, 37
  to heat in hypohydrated rats, 241
Acclimatization,
  and energetic patterns in two Kalahari desert rodents, 199
  and lipid composition of cockroach fat body, 211
  and mitochondrial function in an earthworm, 217
  seasonal in the pouched mouse, 13
Adrenergic receptors,
  and low temperature in heart of a snake and a newt, 141
Aethomys namaquensis, 199
Age,
  effect on heat tolerance in rats, 241
Alligator mississippiensis, 303
Alopex sp., 71
Ambient temperature,
  and body temperature and metabolic rate in brown noddies, 317
  and enforced swimming on body temperature of arctic charr, 351
  and estimation of thermal conductance of homeotherms, 149
  and mating behaviour in two hymenopterans, 45
  and metabolic rate in marmots, 223
  and metabolic rate in naked mole-rat, 227
  and thyroid gland activity in *Xenopus*, 273
  effect on caecal fermentation in naked mole-rat, 345
  effect on tilt evoked swimming in two species of crab, 367
  growth and bioenergetics of *Laccotrephes*, 93
  heart rate and oxygen consumption in alligators, 303
  thermal responses in a freshwater turtle to a change in, 337
Amino acid transport,
  and temperature acclimation of carp intestine, 7
Ammomanes deserti, 255
Amphibia, 61, 141, 273, 297, 309
Annelid, 217
Anous stolidus pileatus, 317
Arachnid, 135, 327
Armadillidium vulgare, 233
Arrhenius plot, 89

BAT,
  differential response of rat and guinea pig to NA and glucagon, 109
  ganglioside GM_3 levels after NA and cold exposure, 37
Behavioural thermoregulation,
  in *Cordylus* following melatonin injection, 179
  in postnatal blue fox and raccoon dogs, 71
  in two hymenopterans, 45
  in two species of *Bufo*, 309
Bembix rostrata, 45
Bird, 65, 121, 149, 185, 255, 317
Blaberus craniifer, 31
Blood flow,
  responses to heat stress in hypohydrated rats of different age, 241
Body temperature,
  and ambient temperature in naked mole-rats, 227
  and exercise in rats, 19, 357, 363
  and heat stress and electromagnetic field in rats, 115
  associated behaviour in brown noddies, 317
  combined effects of temperature and swimming on in arctic charr, 351
  during fever in mice, 103
  during fever in rats, 167
  factors affecting in endotherms, 185
  in *Bufo*, 309
  in *Cordylus* following melatonin injection, 179
  in freshwater turtle following a temperature change, 337
  in hatchling brown noddies, 317
  in hibernacula in marmots, 223
  in normal and oil-exposed polar bears, 53
  in postnatal blue fox and raccoon dogs, 71
  in response to a change in ambient temperature in cockroach, 31
  in the pouched mouse, *Saccostomus*, 13
  in two rodents from the Kalahari desert, 199
  in two species of African antelope, 145
  in *Uromastyx*, 129
Brain cooling,
  selective in exercising and hyperthermic rats, 19
Bufo cognatus, 309
Bufo marinus, 297, 309

Cæcal fermentation,
  effect of temperature on in naked-mole rat, 345
Calcium channels,
  smooth muscle and temperature dependence of currents, 83
Capra hircus, 287
Carcinus maenas, 367
Cardiac muscle,
  effect of temperature in perch, 89
  of a snake and a newt in response to cold and adrenergic stimulation, 141
Cavia aperea porcellus, 109
Cell damage
  in *Magnolia* rooted cuttings, 281
  protection from in CHO cells by cycloheximide, 377
Cephalophus monticola, 145
Channa striatus, 1
CHO cells,
  heat protection by cycloheximide and puromycin not related to polyamines, 377
Coat colour,
  and reflectivity in three subarctic mammals, 291
  and solar heat gain in three subarctic mammals, 291
Cold adaptation,
  effect on adrenergic stimulation of heart muscle from a snake and a newt, 141
  effect on villus transport of amino acids in carp, 7
Cold exposure,
  and thermoregulation in four species of *Gerbillurus*, 25
Cold tolerance,
  in *Gerbillurus*, sp., 25
Colletes cunicularius, 45
Cooling,
  constant in postnatal blue fox and raccoon dogs, 71
  rates in turtle following step-function temperature change, 337
Coptotermes formosanus, 41
Cordylus vittifer, 179
Critical thermal maximum,
  of *Bufo* and behavioural fever, 297
  of two species of termites, 41
Critical thermal minimum,
  of two species of termites, 41
Crustacea, 233, 367

Cyprimus carpio, 7
Cytokines,
production of in mice and the kinetics of fever, 103

Delphinapterus leucas, 57
Development,
change in heat tolerance of *Xenopus* during, 273
effect of temperature on in *Channa* eggs, 1
effect of temperature on in *Laccotrephes*, 93
Developmental thermoregulation,
in brown noddies, 317

Ecological efficiency,
and temperature in *Laccotrephes*, 93
Eggs,
heat flux density of willow grouse, 65
metabolism of and temperature in brown noddies, 317
survival of willow grouse at low temperatures, 65
yolk utilization of and temperature in *Channa*, 1
Eisenia foetida, 217
Electromagnetic fields,
effect on body temperature in rats, 115
Endothermy,
and predictions of body temperature range, 185, 199
an evaluation of in the naked mole-rat, 227
factors affecting in two Kalahari rodents, 199
Endotoxin,
and fever in rats, 167
Enterocytes,
transporting properties of and acclimation in carp intestine, 7
Enzyme(s),
changes in scorpion tissues with acclimation, 327
Evaporative cooling,
in heat exposed goats, 287
Evaporative water loss,
episodic in heat exposed goats, 287
high levels in naked mole-rat, 227
in hatchling brown noddies, 317
Exercise,
and selective brain cooling in rats, 19, 357, 363

Fever,
behavioural in *Bufo*, 297
in rats following endotoxin administration, 167
kinetics of and cytokine production in mice, 103
Fish, 1, 7, 89, 173, 351
Fluctuating temperature,
effect on thermal time constant in cockroaches, 31
Food,
deprivation and thermotolerance in *Gerbillurus* sp., 25

Gerbillurus, sp., 25
Gerbillus allenbyi, 157
Gerbillus pyramidum, 157
Glucagon,
effect on BAT thermogenesis from rats and guinea pigs, 109
Growth,
effect of temperataure and swimming on in arctic charr, 351
effect of temperature on in *Laccotrephes*, 93

Habitat,
selection of warm water by beluga whales, 57
Heat death,
in two species of termites, 41
Heat exposure,
and episodic sweating in goats, 287
and selective brain cooling in rats, 19
effect on hypothalamic temperature in acclimated and control rats, 267
Heat loss,
and episodic sweating in heat exposed goats, 287
by hatchling brown noddies, 317
Heat production,
in two species of African antelope, 145
in vitro of BAT from rats and guinea pigs, 109
Heat resistance,
increase in in CHO cells following cycloheximide or puromycin treatment, 377
Heat stress,
and auditory brain stem evoked response in man, 249
and changes in haematocrit and blood chemistry in an antarctic teleost, 173
in rats age dependent vasomotor responses, 241
response to in potassium deficient rats, 77
Heat tolerance,
and endothermic range in two Kalahari desert rodents, 199
and potassium deficiency in rats, 77
and thyroid activity in *Xenopus* during development, 273
in acclimated hypohydrated rats, 241
in *Magnolia* rooted cuttings, 281
in two species of termites, 41
increased in warm reared rats, 357
Heating,
rates in turtle following a step-function change in temperature, 337
Heterocephalus glaber, 227, 345
Heterometrus fulvipes, 135, 327
Hibernation,
in marmots, 223
Huddling,
and body temperature in blue fox and raccoon dogs, 71
Hyperthermia,
and auditory brain stem evoked response in man, 249
behavioural in *Bufo* after injection of pyrogen, 297
induced by stress handling in mice, 333
induced ultrastructural changes in *Stylonychia*, 261
Hypohydration,
as a factor in heat tolerance in rats of different age, 241
Hypothalamic,
temperature difference between warm-reared and control rats, 357
temperature in rats with and without internal heat load, 267

Ice content,
calorimetric assessment of in *Rana*, 61
effect of body composition on the assessment of, 61
Insect, 31, 41, 45, 93, 211
Insulation,
and metabolism in homeotherms, 149
and seasonal moult in three subarctic mammals, 291
of taxidermic mounts, 121

Laccotrephes griseus, 93
Lagopus l. lagopus, 65
Lepus americanus, 291
Lipid,
composition of cockroach fat body and acclimation and acclimatization, 211
Listeria monocytogenes, 103

Macropipus depurator, 367
Magnolia grandiflora, 281
Mammal, 13, 19, 25, 37, 53, 57, 71, 77, 83, 103, 109, 115, 121, 145, 157, 167, 185, 199, 223, 227, 241, 249, 267, 287, 291, 333, 345, 357, 363
Man, 249
Marmota marmota, 223
Mauremys caspica, 337

Melatonin,
effect on behavioural thermoregulation in *Cordylus*, 179
Membrane,
muscle Ca channel temperature dependence of, 83
thermostability in *Magnolia* rooted cuttings, 281
Metabolic rate,
and acclimation effects in a scorpion, 135
and ambient temperature in naked mole-rat, 227
and seasonal acclimatization in *Saccostomus*, 13
in normal and oil-exposed polar bears, 53
in torpid alpine marmots, 223
of homeotherms in cold and thermal insulation, 149
of two species of African antelope, 145
of two species of Kalahari desert rodent, 199
Metabolism,
and ambient temperature in alligators, 303
and seasonal acclimatization in *Saccostomus*, 13
and temperature in *Uromastyx*, 129
in four related species of *Gerbillurus*, 25
in two species of Kalahari desert rodent, 199
of *Channa* eggs and effect of temperature on, 1
Metabolite(s)
changes in scorpion tissues with acclimation, 327
Mitochondrial function,
and seasonal acclimation of earthworm, 217
Model,
for response of body temperature to ambient temperature in cockroach, 31
Mouse, 103, 333
Muscle,
temperature dependence of Ca channel currents, 83
Mustela erminea, 291

Nest temperatures,
of desert birds and the self-incubation hypothesis, 255
in Kalahari desert rodents, 199
in alpine marmots, 223
NST,
and acclimatization in *Saccostomus*, 13
and cold exposure in four species of *Gerbillurus*, 25
in vitro BAT from cold and warm acclimated rats and guinea pigs, 109
Noradrenaline,
effect on BAT from cold and warm acclimated rats and guinea pigs, 109
induced changes in ganglioside GM_3 levels in BAT, 37
Nyctereutes procyonoides, 71

Operative temperature,
determination of for two desert rodents, 157

Pagothenia borchgrevinki, 173
Patch clamp, 83
Perca fluviatilis, 89
Periplaneta americana, 211
Phodopus sungorus, 291
Photoperiod,
combined effects with thermoperiod on reproduction in *Armadillidium*, 233
and response to heat load in rats, 267
Plant, 281
Pollution,
effect of oil on polar bears thermoregulation, 53
Preferred temperature,
effect of melatonin on in *Cordylus*, 179
Protozoa, 261
Ptyas korros, 141

Q_{10}, 83, 129, 303

Rana sylvatica, 61
Raphicerus campestris, 145
Rat, 19, 37, 77, 109, 115, 167, 241, 267, 357, 363
Refugia,
as a factor in energetic patterns of two Kalahari desert rodents, 199
in alpine marmots, 223
Reproduction,
effect of thermoperiod and photoperiod on in *Armidillidium*, 233
Reptile, 129, 141, 179, 303, 337
Respirometry time resolved,
equations for simultaneous determination of gases, 313
Reticulitermes flavipes, 41

Saccostomus campestris, 13
Salivation,
and heat stress and electromagnetic field exposure in rats, 115
Salvelinus alpinus, 351
Selected temperature,
by beluga whales, 57
in two species of *Bufo*, 309
Selective brain cooling,
in exercising and hyperthermic rats, 19, 363
lack of in warm-reared rats, 357
Skin temperature,
and surface temperature in heat exposed goats, 287
in naked mole rat, 227
in normal and oil-exposed polar bears, 53
Solar heat gain,
effect of seasonal moult on in three subarctic mammals, 291
Stylonychia mytilus, 261
Sweating,
episodic in goats, 287

Taxidermic mounts,
use in determination of dependence of thermal conductance on wind speed, 121
Thallomys paedulcus, 199
Thermal conductance,
and seasonal acclimatization in *Saccostomus*, 13
determination of using taxidermic mounts, 121
estimations of in homeotherms in the cold, 149, 185
in two species of African antelope, 145
in two species of Kalahari desert rodents, 199
wind speed dependence of in taxidermic mounts, 121, 185
Thermal time constant(s),
in cockroaches reared in constant and fluctuating temperature, 31
in freshwater turtle, 337
Thermal tolerance,
and potassium deficiency in rats, 77
in *Bufo* after pyrogen treatment, 297
of two species of termites, 41
Thermogenesis,
non-shivering and acclimatization in *Saccostomus*, 13
by *in vitro* BAT from rats and guinea pigs, 109
Thermoperiod,
combined effect with photoperiod on reproduction in *Armidillidium*, 233
Thermoregulation,
and fever in rats, 103
and seasonal acclimatization in *Saccostomus*, 13
behavioural in *Bufo*, 309
behavioural in *Cordylus*, 179
development of in hatchling brown noddies, 317
in exercising and hyperthermic rats, 19
in freshwater turtle, 337
in naked mole-rat, 227
in postnatal blue fox and raccoon dogs, 71
in normal and oil-exposed polar bears, 53
Thyroid gland activity,
during development in *Xenopus* and heat tolerance, 273

Torpor,
lack of evidence for in four species of *Gerbillurus*, 25
in alpine marmots, 223
Triturus sp., 141

Uromastyx microlepis, 129
Ursus maritimus, 53

Villus,
profiles and acclimation in carp intestine, 7
Vulpes, sp., 71

Warm water,
selection of by beluga whales, 57
Water conservation,
and body temperature regulation in two Kalahari desert rodents, 199
Water content,
tissue following heat stress and electromagnetic field exposure in rats, 115
Water loss,
in potassium deficient and control rats during heat stress, 77
Wind speed,
effect on thermal conductance of fur and feathers, 121

Yolk,
effect of temperature on utilization of in *Channa* eggs, 1
